RE: Surface Application Annual Reports (Form 15) Late Letter.

To whom it may concern:

Surface Application Annual Report (Form 15) was due on 15th April 2017, setting for the total volume of production brine spread per each application points during the preceding calendar year. A recipient of an approved surface spreading resolution is required by Section 1509.226(F) of the Ohio Revised Code to file a report with the Division on a yearly basis designating the volume of production brine applied under an active spreading resolution.

To date, the Division has not received 2016 Surface Application Annual Report for your approved resolution. The Surface Application Annual Report (Form 15) is considered later. Form 15 is required even if there was no brine spread in the preceding year.

The enclosed form is to be completed and returned to the Division. Failure to submit these reports will be considered a violation of the aforementioned law and may result in additional enforcement action.

If Killbuck Township Trustees wishes to no longer spread brine on any roads maintained by Killbuck Township Trustees then a new resolution must be passed by Killbuck Township Trustees terminating the original resolution and submitted to the Division of Oil and Gas Resources Management.

If you have any questions regarding this matter, please feel free to contact me at (614) 265-6933 email me at michael.brown@dnr.state.oh.us
