**INSTRUCTIONS**

- Item I Required. The name must be supplied by the person(s), company or government unit that is responsible for the maintenance of the road(s) to which brine has been applied.
- Item II Include county, township, and actual point of application of brine. A barrel (BBL) equals 42 U.S. gallons.
- Item III Hauler's Name and Registration Number must be listed if a hauler delivered or applied brine. If the county, township, or municipality used its own vehicles to apply brine, a Registration Number is not needed.
- Item IV Supply requested information for each point from which brine was collected and eventually used for surface application.

Additional copies of this form may be attached if necessary.

**RE: Surface Application Annual Reports (Form 15) Late Letter.**

To whom it may concern:

Surface Application Annual Report (Form 15) was due on 15<sup>th</sup> April 2017, setting for the total volume of production brine spread per each application points during the preceding calendar year. A recipient of an approved surface spreading resolution is required by Section 1509.226(F) of the Ohio Revised Code to file a report with the Division on a yearly basis designating the volume of production brine applied under an active spreading resolution.

To date, the Division has not received 2016 Surface Application Annual Report for your approved resolution. The Surface Application Annual Report (Form 15) is considered later. Form 15 is required even if there was no brine spread in the preceding year.

The enclosed form is to be completed and returned to the Division. Failure to submit these reports will be considered a violation of the aforementioned law and may result in additional enforcement action.

If Heath City Council wishes to no longer spread brine on any roads maintained by Heath City Council then a new resolution must be passed by Heath City Council terminating the original resolution and submitted to the Division of Oil and Gas Resources Management.

If you have any questions regarding this matter, please feel free to contact me at (614) 265-6933 email me at [michael.brown@dnr.state.oh.us](mailto:michael.brown@dnr.state.oh.us)

Sincerely,

**Subject:** City of Heath Brine Reporting

Kenny

Hello Kenny I am the Foreman of the Street Department. The well number that I gave you was an error it is the 34-089-2-1539-00-00. I have been with the street department a few years and we have not had to do this type of reporting recently but want to make sure going forward that we give you the kind of information that the state is looking for. Is the format we provided you with a daily total of Brine applied fine with you. The city of Heath has over 150 lane miles we can track the amount of loads we use for each snow event and convert that to Barrels but placing an estimate on each road per event would be a good bit challenging. Thanks for working with us.
