Re: **Saltwater Injection Well
Annual Report**

Dear Sirs:

Annual reports (Form 204) are due on or before the dates indicated at the top of each form. A saltwater injection well owner is required by Rule 1501: 9-3-07(E) of the Ohio Administrative Code (OAC) to file a report with the Division on an annual basis designating monthly volumes and operating pressures. To date, the Division has not received 2015 annual report(s) on the following well(s):

In addition, Rule 1501: 9-3-07(F) requires that the annular space between the casing and tubing be monitored at least monthly at a pressure sufficient to detect leaks. This can be accomplished in one of two ways:

- 1.) The annulus can have a positive pressure maintained on it continuously during injection (Section 14-A on form), or
- 2.) The annulus can be pressure tested monthly at 200 psi. (Section 14-B on form)

This data is then to be submitted to the Division in the appropriate space (Section 14-A or 14-B) provided on the annular reporting forms.

A blank copy of Form 204 is enclosed to be completed and returned to the Division no later than fifteen days after receipt of this letter. Failure to submit a report will be considered as a violation of the aforementioned rules of the Ohio Administrative Code.

If you have any questions concerning the reporting form please contact me at .

Sincerely,

Kenny Brown
