To Whom It May Concern:

RE: Reporting of Brine as per Resolution for Surface Application

Please find enclosed two copies of Form 15, which is the form required by the State in reporting the brine used as surface application on your roads.

We have completed the form for you, with the information pertaining to all of the brine spread on your roads by Fishburn Services, Inc. If no one else spread brine on your roads, merely insert your telephone number where indicated, sign and date at the bottom, and return one copy to the Division of Mineral Resources Management at the address located at the bottom of the signature page (last page of Form 15). The second copy is for your file.

More detailed information regarding the application points of each load of brine spread is on file and available at our office. This information is recorded on the daily log tickets, which we keep on file.

We would like to remind you that the Resolution you originally adopted is effective for one year following the date of adoption, and from month to month thereafter. Further Resolutions are not necessary unless you, the Legislative Authority, wish to change or terminate authority granted in the original Resolution.

Sincerely,

Walter C. Fishburn

Jack Fishburn
President

INSTRUCTIONS:

- Item I. Supply requested information. The name must be supplied by the person(s), company or government unit that is responsible for the maintenance of the road(s) to which brine has been applied.
- Item II. Supply county, township, and actual point of application of brine. A barrel equals 42 U.S. gallons.
- Item III. Hauler(s) name and registration number(s) must be listed if a hauler is used to apply brine to roads. If the county, township, or municipality uses its own vehicles to apply brine, it need not list hauler numbers; however, if hauler delivers the brine to a holding tank prior to application, the hauler's name and registration number must be listed.
- Item IV. Supply requested information for each point from which brine was collected and eventually used for surface application.

NOTE: Additional sheets, if necessary, may be attached.
